TITLE	Comparison of Graduation Rates for Scholarship Athletes and All Students by Sport, Race, and Gender.
INSTITUTION	Oklahoma State Regents for Higher Education, Oklahoma City.
PUB DATE	1 Jul 92
NOTE	71p.
PUB TYPE	Statistical Data (110)
EDRS PRICE	MF01/PC03 Plus Postage.
DESCRIPTORS	Academic Achievement; Academic Persistence; *Athletes; College Athletics; College Graduates; *College Students; Dropout Rate; *Graduation; Higher Education; Minority Groups; *Scholarships; State Colleges; State Legislation; State Universities; Statistical Analysis; Two Year Colleges
IDENTIFIERS	Athletic Scholarships; *Oklahoma; *Student Athletes

ABSTRACT

In response to an Oklahoma state mandate, for the second year, a comparative study was done of the graduation rates of scholarship athletes and the student body as a whole. The study used data from the student-cohort flow system to determine whether students graduated within 6 years of enrollment (for four-year institutions) or within 3 years of enrollment (for two-year institutions). Graduation rates were computed by race and gender for all students, all scholarship athletes and individually for 11 sports, and for four-year and two-year schools. The report reflects graduation rates for 15,435 students, 408 (2.6 percent) of whom were identified by their institutions as scholarship athletes. The study found that graduation rates for scholarship athletes at public comprehensive and four-year universities were approximately the same as for all students at approximately 35 percent, that white scholarship athletes graduated at a rate four-fifths that of all white students, that black scholarship athletes graduated at a rate more than a quarter again of that of all black students, and that scholarship athletes within three racial groups graduated at a rate higher than the all-student category within that group. The bulk of the document presents tables of data from the study. An appendix contains the legislation that mandated the study. (JB)

The Oklahoma State Regents for Higher Education in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws and regulations do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap, or status as a veteran in any of its policies, practices, or procedures. This includes but is not limited to admissions, employment, financial aid, and education services.

This publication, duplicated by the State Regents' central services, is issued by the Oklahoma State Regents for Higher Education as authorized by 70 O.S. 1981, Section 3206. Copies have been prepared and distributed internally. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

SUMMARY

Background:

HB No. 1965, passed by the 1990 Oklahoma Legislature, mandates that the Oklahoma State Regents for Higher Education compile, publish and distribute an annual report comparing graduation rates of scholarship athletes to those of the student body as a whole. This is the second annual graduation rate report.

Population:

This report reflects graduation rates for 15,435 students, 408 (2.6%) of whom were identified by their institutions as scholarship athletes. The study examines graduation rates over a six-year period for fall 1985 first-time-entering freshmen who were full-time, baccalaureate degree-seeking students. Rates for fall 1988 full-time first-time-entering freshmen seeking associate degrees are calculated three years from date of enrollment.

Data for each degree level relate to one entering freshman class and reflect only the behavior of that class.

Format:

Graduation rates have been computed by race and by gender for all students, all scholarship athletes and individually for 11 sports.

Tables reflect rates at each institution with scholarship athletes, each tier of institutions (comprehensive, four-year, two year), and the State System as a whole.

Methodology:

This study uses the student-cohort flow system. In its simplest form, the system uses an individual student's identification number and tracks the student's data semester-by-semester in the State Regents' Unitized Data System.

Data:

Two types of data are presented:

1) "Within the Institution": Reflects the percentage of baccalaureate degree-seeking students who graduated with that degree in not more than six years **from the institution in which they enrolled as first-time-entering freshmen** or reflects the percentage of associate degree-seeking students who graduated with that degree in not more than three years **from the institution in which they enrolled as first-time-entering freshmen.**

2) "Within the System": Reflects the percentage of baccalaureate degree-seeking students who graduated with that degree from **any public or private institution within the state** in not more than six years from the time they enrolled as first-time-entering freshmen at a public institution or reflects the percentage of associate degree-seeking students who graduated with that

degree from **any public or private institution within the state** in not more than three years from the time they enrolled as first-time-entering freshmen at a public institution.

Findings:*

- **Graduation rates for scholarship athletes at public comprehensive and four-year universities were:**

  approximately the same as for all students at these institutions; slightly higher when using "Within the Institution" numbers:

Athletes	*All Students*
35.8%	35.1%

  and slightly lower when using "Within the System" numbers:

Athletes	*All Students*
38.6%	39.5%

- **Graduation rates by tier varied greatly:**

  comprehensive universities: scholarship athletes graduated at a rate that was four-fifths that of all students

Athletes	*All Students*
40.6%	47.3%

  four-year universities: scholarship athletes graduated at a rate one-fifth again that of all students

Athletes	*All Students*
36.9%	31.0%

  two-year colleges: scholarship athletes graduated at a rate more than half again that of all students

Athletes	*All Students*
28.7%	17.6%

- **Graduation rates by race, comprehensive universities:**

  White scholarship athletes graduated at a rate four-fifths that of all White students.

  Black scholarship athletes graduated at a rate more than a quarter again that of all Black students..

  There were no Hispanic and Asian scholarship athletes, and the numbers of Native American scholarship athletes in this tier were too small to yield significant results.

All numbers are "Within the System" unless otherwise noted.

- **Graduation rates by race, four-year universities:**

  Scholarship athletes within three racial groups graduated at a rate higher than the all-student category within that group. There were no Asian Scholarship athletes reported in fall 1985. Native American and White scholarship athletes graduated at a lower rate than that of their respective all-student categories.

- **Graduation rates by race, two-year colleges:**

  Scholarship athletes within each racial group graduated at a rate higher than the all-student category within that group.

  Black scholarship athletes were three times as likely to obtain their associate degrees in three years as were all Black students.

  Hispanic scholarship athletes were more than twice as likely to obtain their associate degrees in three years as were all Hispanic students.

  Asian athletes were not present.

- **Graduation rate by sport:**

  Graduation rates for baccalaureate degree-seeking students in six sports exceeded the average graduation rate of 39.5% for all students.

	Rate
Volleyball	100.0%
Gymnastics	66.7%
Softball	60.0%
Basketball	47.1%
Wrestling	44.4%
Tennis	40.0%

  Two-year colleges reported scholarship athletes in six sport categories. Four of the six had graduation rates well in excess of the 17.6 percent graduation rate for all students at two-year colleges.

- **Graduation rates compared:**
  1984-85 bachelor degree seeking cohort compared with 1985-86 cohort
  1987-88 associate degree seeking cohort compared with 1988-89 cohort

  When the "Within the System" six year graduation rates of the 1984-85 cohort are compared to the 1985-86 cohort, there is a slight percentage point increase in the rate for "All Athletes" in the combined four-year and comprehensive institutions. However, when the rates are examined by individual schools significant changes become apparent. The "All Athletes" graduation rate at the University of Oklahoma increased by 17.9 percentage points between the 1984-85 cohort and the 1985-86 cohort. The graduation rate at Oklahoma State University declined, however, by 2.6 percentage points for athletes between the two cohort years. East

Central University shot up by 39.3 percentage points but the increase was based on a very small number of scholarship athletes. All of the other four-year institutions posted declines in the graduation rates of all of their athletes. For "All Students" as a group the percentage point variance between cohort years was much less. This is due mainly to the stablizing effect of the large numbers in these cohorts.

These variances in just two cohort years point out the danger of using one year of cohort based graduation rates for an absolute measure. Subcohorts, such as scholarship athletes, with small numbers can give a radically different reading from year to year; only over several years can any real trends be perceived. For these reasons, the comparison of the 1987-88 cohort with the 1988-89 cohort for two-year institutions becomes problematic. In addition to the small numbers of scholarship athletes, a number of two-year schools with scholarship athletes in 1987-88 reported no scholarship athletes in 1988-89.

COMPARISON OF GRADUATION RATES FOR SCHOLARSHIP ATHLETES AND ALL STUDENTS BY SPORT, RACE, AND GENDER

Introduction

In 1990 the Oklahoma State Legislature passed House Bill 1965, Section 2 of which requires the Oklahoma State Regents for Higher Education to compile, publish and distribute an annual comparison of graduation rates for scholarship athletes to graduation rates for all students (See Appendix A). This report, the second annual graduation rate reports mandated by HB 1965, contains graduation rates for institutions, for tiers, and for the state by sport, race, and gender.

Background

The report format and methodology were constructed by the State Regents in conjunction with the Unitized Data System Steering Committee composed of institutional representatives. The State Regents' Unitized Data System (UDS) provided the student-flow data upon which the report is based, and colleges and universities identified scholarship athletes in 12 sports. The report reflects graduation rates for 15,435 students, 408 (2.6%) of whom were scholarship student athletes.

Student-Cohort Flow

The study uses the student-cohort flow system. In its simplest form, the system uses an individual student's identification number to track student data semester-by-semester in the State Regents' Unitized Data System. Students tracked in this report, both student athletes and non-athletes, met the following criteria: (1) as first-time-entering freshmen they were taking 12 hours, which fulfills the definition of "full-time" as outlined by the statute and (2) they had declared themselves degree-seeking students.

Baccalaureate degree-seeking students who entered comprehensive and four-year universities as first-time entering freshmen in fall 1985 were tracked for six years; associate degree-seeking students who entered two-year colleges as first-time entering freshmen in fall 1988 were tracked for three years.

Report Content

Two types of graduation data are reported for each group and subgroup within the study:

> "Within the Institution" data reflect baccalaureate degree-seeking students who graduated with that degree in not more than six years **from the institution in which they enrolled as first-time-entering freshmen** or reflects associate degree-seeking students who graduated with that degree in not more than three years **from the institution in which they enrolled as first-time-entering freshmen.**
>
> "Within the System" data reflect baccalaureate degree-seeking students who graduated with that degree from **any public or private institution within the state** in not

more than six years from the time they enrolled as first-time-entering freshmen at a public institution or reflects associate degree-seeking students who graduated with that degree from **any public or private institution within the state** in not more than three years from the time they enrolled as first-time-entering freshmen at a public institution. Students who transfer to and subsequently graduate from another Oklahoma institution are reflected in the graduation rate of their originating institution.

When the "Within the System" six year graduation rates of the 1984-85 cohort are compared to the 1985-86 cohort, there is a slight percentage point increase in the rate for "All Athletes" in the combined four-year and comprehensive institutions. However, when the rates are examined by individual schools significant changes become apparent. The "All Athletes" graduation rate at the University of Oklahoma increased by 17.9 percentage points between the 1984-85 cohort and the 1985-86 cohort. The graduation rate at Oklahoma State University declined, however, by 2.6 percentage points for athletes between the two cohort years. East Central University shot up by 39.3 percentage points but the increase was based on a very small number of scholarship athletes. All of the other four-year institutions posted declines in the graduation rates of all of their athletes. For "All Students" as a group the percentage point variance between cohort years was much less. This is due mainly to the stablizing effect of the large numbers in these cohorts.

These variances in just two cohort years point out the danger of using one year of cohort based graduation rates for an absolute measure. Subcohorts, such as scholarship athletes, with small numbers can give a radically different reading from year to year; only over several years can any real trends be perceived. For these reasons, the comparison of the 1987-88 cohort with the 1988-89 cohort for two-year institutions becomes problematic. In addition to the small numbers of scholarship athletes, a number of two-year schools with scholarship athletes in 1987-88 reported no scholarship athletes in 1988-89.

Notes

Although the report reflects graduation rates for only those institutions with scholarship athletes, it also contains aggregate graduation rates at the comprehensive, four-year and two-year college levels. Because aggregation in a cohort student flow system occurs at the initial formation of the student cohort (in this case with first-time entering freshmen) graduation rates cannot be summed or averaged.

A dash (--) in some cells indicates the institution had no scholarship athletes in that category. For institutions that do not have varsity athletic teams, all cells will contain dashes. At least three schools that have varsity athletic teams reported no athletic scholarships were awarded within the 1985-86 student cohort. These schools have "NA" in each cell.

In several instances the number of individuals in each cell is so small that the percentage value is stated as 0.0% or 100.0%. These values should be analyzed with caution. Were this a numerical report, all values less than 5 would not be displayed in order to comply with the federal privacy act. It is also important to note that tracking students between and among schools relies on data identified by social security number. If a student's social security number changes, is misreported, or withheld by the student, tracking between schools will

not take place and even tracking within an institution may be influenced. Internal data audits at the University of Oklahoma indicate that invalid social security numbers introduce an error range of 1 to 2 percent.

No athletic scholarships were awarded in swimming to any student in the 1985-86 cohort for four-year and comprehensive institutions or the 1988-89 cohort for two-year institutions so no "Within the Institution" and "Within the System" tables were included.

A final note relates to the "all student graduation rates" category. This category does not represent the actual productivity of system institutions. For example, significant numbers of students take more than six years to graduate. As a result, if a cohort of first-time-entering freshmen at OU and OSU were tracked over a ten-year period (instead of six years as in this study), the anticipated graduation rates would be approximately 60 percent. Additionally, the methodology used in this report does not take into account noteworthy differences between urban community colleges and traditional residential junior colleges. Urban community college students tend to take smaller numbers of courses over longer periods of time while residential junior college students tend to follow more traditional enrollment patterns of 12 or more hours during consecutive semesters. Only long-term analysis will fully reveal graduation rates of Oklahoma higher education institutions.

Source: COHORT2

-- = institution does not have varsity athletes in this category.

NA = institution has varsity athletes but none of the athletes were scholarship athletes in the 1985-86, 1988-89 first-time freshmen cohort.

0 = 0.0% means there were no graduations

*Graduation rates in these cells are aggregated tier institutions treated as a single cohort. **Two-year program enrollments contained in base cohort.

Note: Total Sports include: football, basketball, baseball, softball, track & field, wrestling, volleyball, gymnastics, golf, tennis, other.

APPENDIX A

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY 70 O.S. 1981, Section 695.4, as amended by Section 57, Chapter 178, O.S.L. 1985 (70 O.S. Supp. 1989, Section 695.4), is amended to read as follows:

Section 695.4 Any trustee appointed to the Authority shall, at the time of the appointment, be a citizen and resident of the State of Oklahoma for at least one (1) year prior to the date of ~~his~~ appointment. The Authority shall consist of five (5) members appointed by the Governor ~~of the State of Oklahoma~~ with the advice and consent of the Senate ~~and~~. The members shall be removable ~~at his pleasure~~ for cause. The regular term of each member shall be five (5) years ~~except that the initial appointment shall be for lesser terms so that the term of only one member shall expire each year~~.

The trustees shall elect a chairman and secretary and each shall serve until ~~his~~ a successor is elected and qualified and shall perform such duties as the trustees direct.

The trustees shall adopt rules and regulations as they deem necessary for the governing of the Authority and the discharge of its duties and may do all things necessary or convenient to make the Authority effective for the purpose for which it is created.

The trustees shall be reimbursed ~~for travel expenses out of~~ pursuant to the State Travel Reimbursement Act, Section 500.1 et seq. of Title 74 of the Oklahoma Statutes from funds available t the Authority while ~~engaged in attending~~ traveling to and from official meetings of the Authority and ~~in traveling thereto or therefrom, or~~ for travel on other official business ~~pursuant to the State Travel Reimbursement Act~~ of the Authority.

SECTION 2. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 822 of Title 70, unless there is created a duplication in numbering, reads as follows:

A. Beginning July 1, 1991, each institution of The Oklahoma State System of Higher Education which is attended by students receiving athletic scholarships shall submit an annual report to the Oklahoma State Regents for Higher Education which shall include:

1. the graduation rate for students at the institution who received athletic scholarships, detailed by sport, year of enrollment, race and gender; and

2. the graduation rate for all students at the institution, detailed by year of enrollment, race and gender.

B. The Oklahoma State Regents for Higher Education shall compile the data contained in the reports submitted pursuant to subsection A of this section and shall publish an annual report making the information available by individual institution by sport, year of enrollment, race and gender and on a statewide aggregate basis by sport, year of enrollment, race and gender. The report shall be distributed to:

1. the Governor;

2. the Speaker of the House of Representatives;

3. the President Pro Tempore of the Senate;

4. the Publications Clearinghouse of the Oklahoma Department of Libraries;

5. the library of each institution of The Oklahoma State System of Higher Education;

BEST COPY AVAILABLE

6. the State Superintendent of Public Instruction; and

7. any person upon request.

C. The State Superintendent of Public Instruction shall distribute a copy of the report required by subsection B of this section to the library, athletic office, principal's office or counselor's office of each public secondary school in this state. The report shall be made available at the school for public inspection.

D. Beginning July 1, 1991, each institution required to submit a report pursuant to subsection A of this section shall provide the information contained in the most recent report to all high school athletes the institution is recruiting and, for every student who signs a letter of intent, shall obtain a signed statement indicating that the student has reviewed and discussed the report with the secondary school guidance counselor or principal of the student. Said signed statement shall be available for public inspection at the institution for a period of six (6) years following the date signed.

E. For the purpose of this section:

1. "Athletic scholarship" means any scholarship, grant, or other form of financial assistance whose terms require the recipient to participate in a program of intercollegiate athletics for the institution in order to be eligible to receive the assistance from the institution;

2. "Letter of intent" means a document which is:

   a. provided by an institution of higher education to a prospective student who is offered an athletic scholarship, and

   b. signed by the student to indicate the intent of the student to attend that institution; and

3. "Graduation rate" means the proportion of student athletes to the general student population enrolled in at least twelve (12) credit hours per semester who have earned an associate degree within three (3) years or have earned a bachelor's degree within six (6) years of commencing study for such degree.

SECTION 3. AMENDATORY 70 O.S. 1981, Section 3201, as last amended by Section 1, Chapter 285, O.S.L. 1982 (70 O.S. Supp. 1989, Section 3201), is amended to read as follows:

Section 3201. The following state educational institutions shall be members of The Oklahoma State System of Higher Education: University of Oklahoma, Oklahoma State University, Langston University, Oklahoma Panhandle State University, Murray State College, Connors State College of Agriculture and Applied Science, Cameron University, Eastern Oklahoma State College, Northeastern Oklahoma Agricultural and Mechanical College, ~~General State University~~ University of Central Oklahoma, East Central ~~Oklahoma State~~ University, Northeastern ~~Oklahoma~~ State University, Northwestern Oklahoma State University, Southeastern Oklahoma State University, Southwestern Oklahoma State University, University of Science and Arts of Oklahoma, Carl Albert State College, El Reno Junior College, Northern Oklahoma College ~~and~~, Oklahoma City Community College, Rogers State College, Rose State College, Seminole Junior College, Tulsa Junior College, and Western Oklahoma State College.

SECTION 4. AMENDATORY 70 O.S. 1981, Section 3501.1, is amended to read as follows:
